

HAWL-VS-ANITA ANDERSON

April 11, 2019

I am sure that the trial and sanction of Board Member Anita Anderson advances the status of Hide-A-Way Lake Club, Inc., in the community. Everyone should feel safe and their property value should have increased by this Board action.

Actually, the HAWL Board is supposed to manage to make us safe and increase our property value. They should not set around stroking their ego with this nonsense.

If mistakes were made, then they were mistakes, let us move on.

Below is my view of the lynching attempt of HAWL vs Anita Anderson.

My sources tell me that Tara was never going to back down to censure Anita. The rest of the board, at that time, was willing to just vote NO to a censure motion.

Then Anita went to the newspaper to correct, as she saw it, an error in the published minutes. Nancy went to Joanni and complained.

This allegation went up the management ladder. It appears, to me, that Tara was looking for a reason to jam Anita up, and this was her opportunity. After phone calls to the board members it was decided to censure.

By a vote of 10 to 1 the board found Anita guilty and censured her with a warning of dire consequences if she stepped out of line again.

SEVEN of our 12 board members are appointed.

DURING THE LAST BOARD ELECTION ANITA ANDERSON GOT THE MOST MEMBER VOTES!

Hideaway members elected Anita as the candidate they most wanted.
